

Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts may be purposely labeled to be used in dangerous places. A labeled lift truck denotes the design has met the lowest requirements of ANSI/UL 558 used for engine powered forklifts or ANSI/UL 583 intended for electric lift trucks for the type of label placed.

Applications for labeled trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Type Designations, Areas of Use, and Maintenance and Operation. Ask your local insurance carrier and Fire Marshall for further information on the approved uses of industrial powered lift trucks in your application.

If the lift truck has been proven to meet the outlined criteria, the following labels can be attached. A labeled truck would have the type designation placed on the lift truck nameplate and would have one of the following labels placed.
