

## Clark Forklift Part

Clark Forklift Parts - Presently, there are no less than 350,000 Clark forklifts performing globally, and more than 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual parts designed for 20 distinctive designs of forklifts and automated equipment. Your regional Clark Seller is your total source for availability of all your parts requirements offered by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The components warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really impressive worldwide support network. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the material handling market.

Clark proudly remains an progressive leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is now a customary feature on every forklift.

Clark's continual effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the globally approved quality standard ISO 9001 for every one of their manufacturing plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the very economical and advantageous structure of "Lean Production" for its assembly plants and application of resources. This system was established to acknowledge the most efficient approaches of production plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to develop the proficiency and brilliance of their merchandise while minimizing costs. The contemporary value engineering agenda combines innovative product growth and delivers improved client support and service within the industry.
