

## Concrete Hopper

Concrete Hopper - This particular attachment is a self-dumping hopper which automatically sets off to unload as soon as bumper release contacts the side of a dumpster. As soon as dumping is done, the hopper goes back to a locked and upright position. This particular piece of machinery is even offered along with a cable which enables operation from the seat of the lift truck so as to have the choice of manually dumping the hopper. There is a locking chain provided in order to lock the hopper to the fork truck. This particular product is made with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish so as to maintain durability.
