

Forklift Spreader Bars

Forklift Spreader Bars - Proudly operating since nineteen seventy four, ELME Spreader AB is the largest independent spreader business in the world. They have been a devoted manufacturer of spreaders used for different applications such as the handling of containers, swop bodies and trailers.

Engineering is done in house by using the newest CAD systems and FEM tools. The ELME business now employees more than one hundred twenty five personnel. Their spreaders are supplied to reach straddle carriers, lift trucks, gantry, quayside, ship-to-shore cranes and stackers all-around the globe.

The ELME product range offers spreaders designed for various trailer and container handling operations. Several of their inventory include: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers in addition to a wide variety of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they made more than one thousand one hundred fifty spreaders by utilizing high quality components so as to ensure dependability and excellent standards while offering competitive prices. Major characteristics of ELME comprise design simplicity, market reaction and ground-breaking modular spreader concept.
