

Meritor Parts

Meritor Parts - Meritor is a leading international dealer which is proudly established on a one hundred year custom of service and quality. They concentrate on different modules, integrated systems and parts to original equipment manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and believes that this particular energy contributes to their competitive advantage within the international operations. The company values all their clients and would like to guarantee their success while anticipating their different requirements. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over 11,200 people, Meritor promotes innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in only employing future focused individuals. These top-caliber workers could quickly get used to to changing surroundings and freely exhibit the level of performance and commitment necessary so as to attain results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor offers their workers different opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering that include axles, drivelines, braking and suspension systems designed for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is likewise responsible for supporting the requirements of all their international engineering employees.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all around the globe in 19 countries and in 5 different continents.

They have their supplier network that is specially situated so as to support the development of the business. Each and every regional team has internationally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each aspect of the company. The DFSS or also known as Design for Six Sigma ensures product reliability in every region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean methods.
